

INSIGHTS: Integrating Sex and Gender In Health Sciences

Dive into the heart of health sciences this summer with our one-week immersive course, **INSIGHTS: Integrating Sex and Gender in Health Sciences**. Designed for the ambitious healthcare professional, this program unravels the complex role of sex and gender in medicine and healthcare, offering state-of-the-art knowledge and research methodologies that are critical in today's dynamic health and research landscape.

Why INSIGHTS?

- **Conceptual Clarity:** Gain a clear understanding of sex as a biological variable and gender as a socio-cultural factor in health and medicine.
- **Impact Analysis:** Learn how these factors influence patient care, treatment outcomes, and healthcare practices.
- **Interdisciplinary Insights:** Apply this knowledge in research, clinical practice, and public health, fostering an integrated approach to healthcare.
- **Practical Application:** Engage in hands-on activities designed to challenge your thinking and refine your skills.
- **Expert Knowledge:** Benefit from the wisdom of international experts and access practical tools to enhance your daily work.

Networking and Cultural Immersion

After course hours, embark on a journey of cultural exploration and professional networking. Meet like-minded professionals and students from across the globe, share experiences, and create lasting connections. Discover the charm of Nijmegen and the vibrant culture of the Netherlands, enriching your summer with unforgettable memories.

Who Should Apply?

This course is tailored for those at the master, PhD, postdoc, or professional level in the health sector. Whether you're involved in health and medical practice, policy, advocacy, or research, INSIGHTS welcomes you. We seek candidates with a master's degree or equivalent, practical experience in their field, an open mind, and a commitment to active participation.
